

OPEN, ACTIVE AND SCALE OUT CYBERSECURITY PLATFORM

for Enterprise and Service Providers

Collect

Heterogenous data from multiple sources.

Analyze

Deep insights of your networks.

Act

Protecting IT infrastructure of any size.

Traffic

Netflow v5, v9, IPFIX, sFlow collectors
DPI Analysis, Anomalies, Malware, DLP, Vulnerabilities
Geolocation
Wired & Wireless Networks

Intrusion (IDS/IPS)

SNORT IDS /IPS deployment
Centralized Management
Signature Policies, Anomalies, Attacks
Reputation & Geoblocking
Custom Rules
LAN Bypass (redborder appliances)
Hierarchical Policies
Multiple Feeds

Vault (SIEM)

Log Parsing, Normalization & Storage
Behaviour analysis
Integrating HW and Software Assets

Infrastructure Monitor

Monitoring Deployed Hardware
through SNMP, Redfish, bulkstats.

Mobility

Integrations with Vendor APIs
Indoor Localization
Location Analytics

Correlation Engine

Analysis combining any rule
Detect Anomalies and Behaviours

redborder editions

Enterprise

Active cybersecurity platform for companies of any size.

OEM

Tailored version for security service/hardware providers.

Community

Try out and fly free with our community version.

Live

Our platform as a service. Get the most of our cyber security services with no additional structure.

redborder manager appliances

MODEL	HARDWARE CHARACTERISTICS
HPA-6600 Up to 1000 event per second*	8 threads, 64Gb RAM, 100Gb SSD, 2x3Tb Disk.
HPA-8600 Up to 5000 event per second*	16 threads, 96Gb RAM, 2x100Gb SSD, 4x3Tb Disk.
HPA-9600 Unlimited event per second*	16 threads, 128Gb RAM, 4x200Gb SSD, 8x3Tb Disk.

Features	Redborder Manager	Intrusion Probe	Wifi extension
Unified Platform Features Dashboards, Reports & Personalization Automation (Rules, Alerts & Reporting) Centralized Domain, Sensor & User Management Automatic Attack Detection Big Data Capabilities Cluster configuration * Multitenancy and unlimited scalability*	X		
Asset Detection, Behavior Analysis, Anomaly Detection, Forensics	X		
Wired Network Infrastructure Monitoring, DPI, Anomalies	X		
SIEM Capabilities. Device & Service Log Collection & Analysis. Event Correlation Rules. Security Event Classification and Priorization.	X		
IPS Sensor Management		X	
Vulnerability Detection, Automatic Advanced Attack Detection	X	X	
Automatic Attack Blocking		X	
Wireless Network Infrastructure Monitoring*			X
Individuals/mass movements. Location Monitoring & Analytics*			X

(*) Only available on Enterprise Edition
